DRAWING CONNECTIONS

24 settembre, 22-28 ottobre 2011

Selezione di opere / Selected Works

Drawing Connections : 24 settembre, 22-28 ottobre 2011
 Selezione di opere/ Selected Works

Siamo molto grati a tutti gli artisti per la straordinaria risposta che abbiamo ricevuto per la nostra mostra Drawing Connections. In occasione di Drawing Connections ci sono pervenute più di 4.500 cartoline, che sono state tutte esibite durante la mostra, e che rimarranno nell'archivio dello Siena Art Institute. Stiamo anche prendendo in considerazione l'opportunità di mostrare questa straordinaria collezione di opere d'arte presso altri spazi artistici.

I nomi di tutti i partecipanti a Drawing Connections sono elencati in nostra pagina:

www.sienaart.org/drawing-connections.html

Si prega di notare che non è stato possibile includere tutte le cartoline di Drawing Connections nel catalogo della mostra, come ci si era auspicati. Le dimensioni e il peso di un catalogo contenente oltre 4.500 opere d'arte sarebbero semplicemente eccessivi per il download. Questo catalogo, invece, contiene un'accurata selezione di opere esibite durante la mostra che ben testimonierà lo spirito con cui è stata organizzata.

L'esposizione è il frutto della creatività di artisti di oltre 70 paesi del mondo che, tra luglio e settembre, hanno risposto all'appello del Siena Art Institute a partecipare, con un lavoro originale formato cartolina (15 cm x 10.5 cm), ad una collettiva che è stata parte dell'evento inaugurale della scuola, il 24 settembre.

L'invito è stato accolto da artisti da ogni angolo del pianeta. Molte le gallerie d'arte che hanno partecipato con propri lavori, come la First Floor Gallery di Harare, Zimbabwe, la Yukari Art Contemporary di Tokyo, Giappone, la Art Street Gallery di Fredericksburg, Virginia. Tante anche le scuole rappresentate, dal Connecticut College di New London, Connecticut, alla Fairleigh Dickinson University di Teaneck, New Jersey, fino alla Salwan Public School in India.

Un'esplosione di creatività senza confini realizzata con i mezzi espressivi e sui supporti più diversi: dalla pittura alla fotografia, dalla scultura al collage fino alla computer graphics, su tela, su carta, su tessuto, su resina di plastica, su vetro o su terracotta e con materiali talvolta molto originali come cenere, francobolli e circuiti elettronici.

We are very grateful for the overwhelming response we received for our Drawing Connections exhibition. Over 4500 artworks were submitted for Drawing Connections, and all artworks were included in our exhibition and will remain in the Siena Art Institute archive. In addition, we will be pursuing future opportunities to exhibit this extraordinary collection of postcard-sized artworks in other venues.

The names of all participating artists are listed at the back of the catalog, and on our webpage: www.sienaart.org/drawing-connections.html

Please note that it is not possible for us to include all artworks of Drawing Connections in the exhibition catalog, as we had originally wished. With over 4500 artworks, the size of an online catalog featuring all artworks would simply be too large to be a manageable downloadable file. Instead, this catalog features a curated selection of works from the exhibit, capturing the spirit of this remarkable exhibition.

The exhibition was the fruit of the creativity of artists from over 70 countries who, between July and September 2011, responded to the invitation of the Siena Art Institute to participate with an original work in postcard format (15 cm x 10.5 cm) in a collective exhibition that played a part of the inaugural event of the school on the 24th of September.

The invitation was responded to by artists from every corner of the planet. Many galleries of art have participated with their works, such as the First Floor Gallery of Harare Zimbabwe, the Yukari Art Contemporary Gallery of Tokyo Japan, the Art Street Gallery of Fredericksburg Virginia USA. Many other schools were represented, from Connecticut College of New London Connecticut USA to the Fairleigh Dickinson University of Teaneck New Jersey USA to the Salwan Public School of India.

An explosion of creativity without limits realized in a wide variety of expressive media: photography, sculpture, collage, computer graphics, on canvas, paper, textile, plastic resin, glass, ceramic, and also some with very original materials such as ash, stamps, and electronic circuits.
